

Boys Hope Girls Hope

St. Louis

The BHGHSTL Academy after school and summer program kicked off last fall to provide tutoring, homework help, dinner, enrichment, games, and fun for students in our community. After dinner and activities one evening, Tenina put her arms around her fellow scholars and declared "I love being with you all! Do you remember when we first started, and no one talked to each other? Look how great this is now! We are all friends!"

The scholars' participation in the Academy has provided them with a safe community where they can be themselves, pursue their interests, and connect on a deeper level with other students their own age, while simultaneously using the educational and life skill opportunities they are learning through the program.
